VOLUME CONTENTS

1993 NUMBER 1

G. N. Aleksandrov	1	Optimization of overhead transmission line construction with increased nominal power
V. A. Avrutskii, A. S. Bizyayev, I. A. Gushchin and **L. V. Levitova**	15	Gas discharge lightning protection of installations with a dielectric body
Ye. M. Lopukhina and **El-Halabi Gasi**	23	Determination of the end-turn leakage reactance of a three-phase toroidal winding by a method of harmonic analysis
Yu. A. Moshchinskii and **I. L. Osin**	39	Determination of three-phase induction motor parameters from an asymmetric supply test
S. Halasz	47	Optimization of voltage inverter control in an asynchronous electrical drive
V. N. Pupynin and **V. L. Nikitin**	57	Conditions for efficient employment of capacitance energy accumulators in a power supply system for electric traction
A. M. Segal	69	Analysis of the interaction between busbars, line conductors and screens, allowing for the proximity effect
I. V. Zhezhelenko and **V. P. Stepanov**	75	Development of methods for calculating electrical loads
M. A. Khozyainov	91	Elimination of overloads in a power system by alteration of the network configuration
V. A. Avrutskii, A. S. Bizyayev, I. A. Gushchin, Ye. N. Prokhorov and **I. M. Sergiyevskaya**	109	Damage to articles made of carbon-filled plastic by the impact of lightning currents
S. G. Obukhov and **T. V. Rosinskaya**	121	Algorithms for the voltage–current characteristics of a controlled converter
L. A. Zinchenko	131	Application of *N*-terminal network equivalent transformations to the problem of equivalent circuit design
Yu. N. Astakhov, K. K. Zubanov, V. P. Kavchenkov and **T. Ye. Pashenkova**	139	Application of similarity theory in forecasting electrical energy generation
Yu. V. Abramkin	155	Determining the volume density of electromagnetic forces in a non-linear system by an energy method
R. V. Yermuratskii and **A. V. Netushil**	191	Energy processes in circuits with an electric arc
M. E. Borisova, I. Ya. Gallai and **S. N. Koikov**	201	Low-frequency dispersion of capacitance in polyethylene terephthalate film specimens
	207	List of papers not translated from *Elektrichestvo* Nos 1–3 1993

1993 NUMBER 2

V. A. Semenov	1	Prospects for improving the control centres of power systems and power pools
A. A. Kuvshinov	17	Compensation of leakage currents from a capacitive storage connected to a controlled rectifier bridge
V. I. Milykh	31	Analysis of eddy currents in the armature winding of a d.c. machine under no-load conditions
S. A. Basharin, P. N. Matkhanov and **M. G. Boyarkina**	47	Synthesis of macromodels for non-linear dynamic circuits
Ye. P. Kudryavtsev and **B. N. Neklepayev**	51	Analysis of the deflection of flexible conductors under short-circuit conditions
A. Yu. Gruzdev and **A. D. Sablin**	69	Dynamics of a synchronous machine with inductive energy storage for short-period duty
Ye. S. Kolechitskii, V. N. Moiseyev, A. I. Plis and **V. I. Plis**	83	Electromagnetic fields created by current pulses
M. V. Vazyulin	93	Expert systems for analysing protective relay actions
V. V. Makarov, V. I. Meleshin and **V. A. Yakushev**	107	Resonant transistorized voltage converters with the load connected to the capacitor in the circuit
V. A. Labuntsov and **Chzhan Daizhun**	129	Three-phase rectifier with a capacitance filter and an improved waveform for the current drawn from the network
	137	Papers not translated from *Elektrichestvo* Nos 4–6 1993

1993 NUMBER 3

V. A. Barinov, G. A. Volkov, V. V. Kalita, F. L. Kogan, S. F. Makarov, A. S. Manevich, V. V. Mogirev, F. I. Sinchugov, V. A. Skopintsev and **Z. G. Khvoshchinskaya**	1	Improving the reliability of electrical power system operation
L. N. Plyashkevich, I. L. Zhil'tsova and **O. V. Rymar'**	15	Simulation of a magnetic cumulative generator with transformer energy output
R. K. Borisov, O. A. Grigor'yev and **V. P. Larionov**	23	Methods for lightning-proof tests of airborne aircraft equipment
V. A. Volodarskii	33	Modelling of failures of power supply system elements
Ye. F. Belyayev and **N. V. Shulakov**	41	Features of a method for analysing the magnetic field of low-power induction motors with the rotor made of ferromagnetic powder material
G. N. Aleksandrov and **A. I. Afanas'yev**	53	Optimization of the design of extra-high-voltage overhead transmission lines
L. S. Gerasimov and **V. I. Ikryannikov**	69	Temperature instability of a metal conductor at high current densities

V. I. Chaban	81	The principles of building chain mathematical models of electrical equipment
M. V. Lisitsyn and **Ye. G. Kosareva**	85	Multivariable automatic control of electrical power plant operating conditions
V. F. Bolyukh	93	Excitation of a cryoresistive winding from a capacitive accumulator with a magnetically coupled circuit
B. I. Kuznetsov and **Ye. A. Prokopenko**	103	Dynamic characteristics of two-channel optimum control servosystems with separate loads
N. D. Biryuk	109	The method of complex amplitudes and its generalization in a theory of electrical circuits
	115	Papers not translated from *Elektrichestvo* Nos 7–9 1993

1993 NUMBER 4

A.-Z. R. Dzhendubayev	1	Determination of the boundaries of the stable self-excitation region of an asynchronous generator with two stator windings
A. A. Afanas'yev, V. A. Nesterin and **A. N. Vorob'yev**	11	Analysis of permanent magnet electric motor magnetization by the method of conjugation of conformal representations
V. N. Ostreiko	25	Simulating layered structures by homogeneous bodies in electromagnetic analysis
A. Yu. Vorob'yev, D. V. Nikitin and **Ye. A. Khachaturova**	45	Analysis and control of electrical energy storage operation in electrical power systems
Yu. F. Vladimirov	55	Analysis of the steady-state asymmetrical operating mode of cable networks up to 1 kV with an isolated neutral
V. G. Alekseyev and **Ya. S. Gel'fand**	65	Comparison of algorithms for differential protection of transformers
V. I. Popov	75	Electromechanical frequency converters based on cascaded asynchronous machines
A. Ye. Sikorskii and **V. L. Mikhalev**	91	Operation of relay protection systems in the presence of electromagnetic noise
M. Ya. Mints, V. N. Chinkov and **O. G. Grib**	101	A method for simultaneous equalization of currents, balancing of phase voltages and compensation of reactive power in three-phase networks
V. Z. Annenkov	109	Sparking phenomena in the ground around earth electrodes of lightning protection systems
V. A. Labuntsov and **D. R. Zhang**	119	Single-phase solid-state compensators of the passive component of instantaneous power
N. Ye. Nevesskii	141	Electromagnetic fields of current structures
	149	List of papers not translated from *Elektrichestvo* Nos 10–12 1993
	i	Volume Contents/Author Index for the 1993 Volume
